# Edith Declan BSc(Ed), BSN-RN, MSN, FNP.

RESEARCHER: Transforming Healthcare Through Clinical Research, Innovations, and Patient-Centered Strategies  
Greater Houston

## Summary

I am a Family Nurse Practitioner with several years of experience as a research Investigator and community health specialist.

Driven by my passion for education, I served as a member of the Houston Community College Nursing Advisory committee for 10 years, taught and mentored over 1000 students as an Adjunct Nursing Faculty.

I am dedicated to empowering healthcare professionals, researchers, institutions, and pharmaceutical organizations to bridge the gap between clinical practice and research, improving trial outcomes, driving diversity in patient engagement, for a healthier, more equitable future.
